

Maximize Your Time

— Find It **Online!**

MedCost Payer Claims Repricing Inquiry

We've expanded our online services to include a Payer Claims Repricing Inquiry. With this new web application, you can:

- View and print claims within 24 hours of repricing
- View information relayed to providers regarding non-repriced claims
- Contact MedCost via e-mail link, with a 24-48 hour response time
- Preview practice or facility demographic information

To take advantage of this new feature, you will need to register on our website at www.medcost.com. We recommend assigning one staff member to act as an Account Administrator, such as your claims area manager, supervisor, or other appropriate management personnel. This person will register the account, and then create and maintain other staff accounts as necessary.

If you already have a user ID and password to access our Web Application Services for Health Management, you will **not need to re-register again**. Click on "Already Registered and Have Your Password," and log in to your account as normal. Click on "Web Applications" and select "Claims Repricing Inquiry."

If you have any questions regarding this new tool or how to use it, feel free to contact us at payerwebservices@medcost.com.

MedCost is dedicated to helping our clients make the most of their online experience. We're excited about this new feature and hope you will be, too!

MedCost⁺

To Begin Using the Claims Repricing Inquiry

- Go to www.medcost.com.
- Select the section entitled "Payer Partners."
- Click on "Web Applications."
- To view a brief demonstration, click on "Claims Repricing Inquiry Demo." (This demonstration does not query actual MedCost data.)
- Or, to register, click on "Interested in Getting Registered?", click on "proceed" and complete the application.
- Once your registration is complete, a user ID and temporary password will be issued and returned to the applicant via **e-mail** within 24-48 hours.

Note: If you have a spam filter, please add us to your address book at payerwebservices@medcost.com to receive updates and other important information concerning this web product.
